PROFESSIONAL SUMMARY

AI & Data Science graduate with 12+ months of internship experience in machine learning, NLP, data engineering, and full-stack development. Skilled in building end-to-end ML pipelines and deploying predictive models using Python, TensorFlow, Scikit-learn, Hadoop, and Spark, with hands-on SQL and Power BI expertise for data analytics and BI dashboards. Proficient in JavaScript, React, and Node.js to develop interactive websites and Python to integrate AI/ML solutions into production-ready applications. Seeking roles in Data Science, ML Engineering, AI Engineering, Data Engineering, or Software Engineering

CORE SKILLS

Languages: Python, SQL, Java, C++, C

ML / AI: Machine Learning, Deep Learning, NLP, Predictive Modelling, Feature Engineering, Statistical Analysis, RNN, LSTM, K-Means Clustering, PCA, Unsupervised Learning

Libraries: Scikit-learn, TensorFlow, Pandas, NumPy, NLTK, Text Blob, Streamlit, Matplotlib, Seaborn

Data & BI: Power BI (DAX), MySQL, Hadoop, Apache Spark, Hive, MapReduce, Excel (Power Query), Deepgram API, gTTS

Web & Tools: React.js, Node.js, Apollo GraphQL, Git/GitHub, VS Code

Gen AI: LLM Basics, Prompt Engineering, Oracle GenAI, AI Workflows

WORK EXPERIENCE

Data Engineering Intern | Navitas Life Sciences, Chennai -- [View Completion Letter](#)

Jan 2026 – Apr 2026

- Developed and deployed ML-ready ETL pipelines processing 1M+ FDA FAERS records using Python, Hadoop, and Apache Spark, enabling large-scale predictive analytics for pharmacovigilance.
- Collaborated with cross-functional data engineering and business teams to design 5 Power BI reports, presenting adverse drug reaction trends to stakeholders and cutting reporting cycle time by 30%.

AI & ML Intern | Labmentix (Remote) -- [View Experience Letter, Certificate and LoR](#)

Sep 2025 – Mar 2026

- Designed, trained, and tuned Logistic Regression, Random Forest, and XGBoost models in Python on 50K+ records with 15+ engineered features, improving CSAT prediction accuracy by 18% (F1 vs. baseline).
- Applied K-Means clustering with PCA for unsupervised model development on behavioural data, monitoring model performance to surface 3 interpretable audience segments for business strategy.

Project Intern | Strack IT Pvt Ltd, Coimbatore -- [View Completion Letter](#)

May 2025 – Jun 2025

- Built a Python predictive-modelling proof of concept, applying statistical analysis to structured sales data to generate 5 actionable business insights.
- Optimized the REST API data layer serving model outputs, collaborating with developers to cut response latency by 40%.

Data Analyst Intern | Null Class EdTech (Remote) -- [View Experience Letter and Certificate](#)

Sep 2024 – Nov 2024

- Pre-processed and transformed 10K+ raw, unstructured Twitter/X records into analysis-ready datasets for downstream modelling.
- Built 3 real-time Power BI dashboards with custom DAX measures, presenting engagement and sentiment insights to stakeholders.

KEY PROJECTS

Flipkart CSAT Prediction System [Python · XGBoost · SQL · REST API · Git]

- Built and deployed an end-to-end ML pipeline — feature engineering, model training, automated retraining — serving live predictions via REST API with Git-based version control.

Tesla Stock Price Prediction [Python · LSTM · TensorFlow · Streamlit]

- Developed and deployed LSTM time-series forecasting models as a live Streamlit app with scheduled retraining, covering the full ML model lifecycle.

YouTube Comment Sentiment Analysis [Python · NLP · NLTK · Text Blob · REST API]

- Built an automated NLP sentiment-classification pipeline integrated with the YouTube REST API for hands-off, scalable monitoring.

AI-Driven CO₂ Capture & Air Purification [Final Year Project · IoT · Real-time AI Prediction]

- Integrated AI-based sensor decision logic with IoT hardware to drive real-time, automated indoor air-quality control.

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional** -- Oracle University (Oct 2025) -- [View Certificate](#)
- ISO 9001:2015 -- Master in Software Technology** (C, C++, HTML, CSS, JavaScript; Elective: Java), Grade A+ -- Tec Mac (Aug 2022 – Aug 2023) -- [View Certificate](#)
- Other Certifications** -- [View Folder](#)

EDUCATION

B.E. — Artificial Intelligence & Data Science | Aug 2022 – Jun 2026

Avinashilingam Deemed University, Coimbatore · **CGPA: 8.25/10**

Coursework: Machine Learning · NLP · Statistics · Data Science · DBMS · Cloud Computing · Software Engineering

ACHIEVEMENTS

- Smart India Hackathon 2024 — National Grand Finale Finalist & Team Leader (I-Flush IoT project) -- [View Certificate](#)
- 3rd Place — National Level Code Debugging Symposium -- [View Certificate](#)
